

Measures to prevent infection of COVID-19

~"New Hokkaido style" security declaration~

Wear face masks.
Take our temperature before working.
Wash our hands frequently.

Disinfect regularly the lounge facility.
Install the hand-sanitizers.

Ventilate the lounge using air conditioner.

Take guests' temperature at the entrance.

Install plastic screens.

Stop temporarily services of magazines and newspapers.

Install plastic curtains at the reception.
Handle cash and credit cards in the tray.

Place paper towels instead of using a hand-dryer.

Introduction of Hokkaido Covid-19 Notification System.

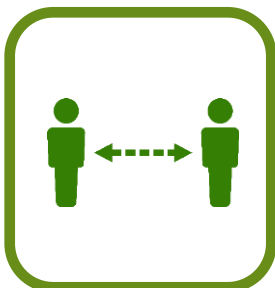

Request to lounge guests for
preventing from infection.
~Thank you for your cooperation of safe operation~

We will be conducting a body temperature check for all guests upon arrival. Please understand that we cannot accept guests with a body temperature of 37.5°C or higher.

In the lounge, guests are asked to put them on, except for when eating or drinking. In addition, please refrain from talking loudly.

Please keep distance between each other in the lounge.

There are sanitizers at reception and drinking space. Guests who arrive at the lounge and use common items, are asked to disinfect their hands.

We might have entrance regulation to the lounge due to the busy time. During the regulation, we cannot accept reentering after leaving once.
